

What do you ASPIRE to?

Are you interested in developing novel solutions to the opioid crisis?

Announcing A Specialized Platform for Innovative Research Exploration (ASPIRE) Design Challenges for Translational Innovation in Pain, Opioid Use Disorder and Overdose

Challenge 5: Integrated Solution

Learn more about this Challenge to converge solutions for two or more areas (integrated database, electronic synthetic chemistry portal, predictive algorithms and biological assays) into an integrated solution.

Submit your solution by **May 31, 2019**. For more details, visit <https://ncats.nih.gov/aspire/challenges>.

- Up to two winners will each receive \$250,000.
- Explore other Challenges to develop an integrated database, an electronic synthetic chemistry portal, predictive algorithms and biological assays.
- Email questions to NCATSASPIREChallenge@mail.nih.gov.
- Join the conversation on social media using **#NCATSASPIRE**.

These Challenges, led by the National Center for Advancing Translational Sciences (NCATS), National Institutes of Health (NIH), are a component of the NIH HEAL (Helping to End Addiction Long-termSM) Initiative: <https://www.nih.gov/heal-initiative>. For more information on NCATS' role in the NIH HEAL InitiativeSM, visit <https://ncats.nih.gov/heal>.
