¹ NCATS received CTSA Program-specific appropriations language beginning in FY2014. CTSA Program-specific appropriations language in FY2012 and FY2013 was directed to the NIH Office of the Director.

² A CTSA Program Hub is defined as a UL1 award with a linked KL2 award and an optional TL1 award. No Cost Extensions (NCE) to Hub awards do not receive funding from NCATS in a particular fiscal year. NCEs do not count as funded Hubs in that fiscal year and are therefore not reflected in the table.

³ In FY2014 NCATS did not issue a CTSA Program Hub funding announcement as the program was being re-structured in response to the 2013 IOM recommendations. Eight CTSA Program Hubs that were positioned to re-compete for hub awards in FY2014 were issued orderly close-out supplements to enable them to remain active until a FY2015 funding announcement was available and posted.

⁴ The totals reported in this table reflect only NCATS' investment in the CTSA Program. For FY2017, NIH RePORTER data shows an additional \$407,214 due to cofunding provided by DHHS.

⁵ NCATS investment in Administrative Supplements for FY2014 was \$93,000 less than what is shown in NIH RePORTER. NCATS investment in Administrative Supplements for FY2016 was \$23,389 more than what is shown in NIH RePORTER. Grand total amounts for the fiscal years are accurate.
